To Whom It May concern:

Let me introduce Jeff Oliver. He really is an Awesome DJ. I've been a photographer or over 23 years and I've been to well over 800 weddings. It's not unusual for me to have to help run the event and it's frustrating as a photographer to do this, plus do a great photography job. It's actually very rare to run into a DJ that does more than play music.

It's easy to say that Jeff does a fantastic job with the music. At every event the dance floor is packed. But, Jeff does so much more than music. When it comes to the details, announcements and timing he coordinates everything very smoothly. And, Jeff is a great teammate because he communicates with me and my job is easier too. This is especially needed during the bouquet and garter toss.

Working with Jeff is a great pleasure because he know how to be flexible to the clients needs and because he does a great job I can easily take better quality pictures and have more variety than just the formal shots. He brings out the celebrative nature at any event. And, believe me that no events are as fun to shoot as the ones that Jeff entertains at.

I highly recommend Jeff Oliver ([www.DJJeff.com](http://www.DJJeff.com)) to any special event.

Sincerely Yours,
