

To Whom It May Concern:

This is written in the interest of Jeff Oliver, a well known D.J. and entertainer. I have known Jeff for several years and have worked with him. To introduce myself - I was ordained in 1943 to the Christian ministry and have been pastor of churches in Wisconsin, Colorado, Southern and Northern California. Early in my career I found people responsive to my personality and my persona as an officiating minister for weddings. As a matter of fact I have officiated at 3,027 weddings in my 60 years as a minister.

I cite the above because you can believe I have worked with multitudes of D.J.'s across the years. I can say without condition that Jeff Oliver is absolutely top notch. He indeed is an awesome D.J. He is demanding upon himself in making sure that he covers all the bases as he prepares himself and his responsibility for making a wedding a special day never to be forgotten. He is great with his entertaining and interesting pursuit of perfection in his career.

I recommend him to you unconditionally!!

Sincerely,

Robert E. Bench
