Dear Jeff:

I've seen many DJ's and very few are even in the same league of perfectionism that you constantly give to your clients. Those extra things that you do really make a difference in how the events run smoothly and the great times that people have at your events.

You know, Jeff, you can count on me if you need a referral! As a videographer, I have participated in many of the same events that you do, and you always do a great job!

Don't be discouraged after your hardship for the past years, but I find that people who are survivors are very understanding and appreciative of what life has to offer us. Believe me, I am one of many people that recognize your abilities and talents. And remember, not having significant advertising for almost eight years will not be a deterrent for a successful business.

Your brochures are well thought of and planned and do capture the spirit of joy you bring to each event.

Sincerely yours,

Charles Ochoa
