To Whom It May Concern:

---

In my photography career I've seen many DJ's. But none of them are as polished, professional, flexible, equipped, creative and as fun as Jeff Oliver. ([www.DJJeff.com](http://www.DJJeff.com))

He has the ability to make any event "sing". His music is always wonderful and brings any crowd to their feet. At the same time he does a wonderful job of Hosting, Coordinating and Running events smoothly.

If you're looking for a personalized and memorable event that your friends will talk about for many years to come take it upon my word that Jeff Oliver is a class act.

But, don't take my word as gospel. Just take the time to see his video demo. Meet Jeff Oliver and find out for yourself what a fine entertainer he is.

Sincerely Yours
